U.S.A vs. Lela Harris

Docket No.: 05-20250-004-MI

Defendant Lela Harris reported for supervision on December 29, 2005, and signed a voluntary admission of illegal drug use indicating that she used cocaine on or about **December 26, 2005**. Ms. Harris tested positive for cocaine on a urinalysis test administered **December 9, 2005**, that was later confirmed by Kroll Laboratories. On November 30, 2005, Defendant Harris was admitted into the Intensive Outpatient Program at New Directions, Inc. and was scheduled to attend group every Monday, Thursday, and Friday. However, Ms. Harris did not attend a group session until December 9, 2005, and since that date she has only attended one group session on December 15, 2005. Furthermore, the defendant has not obtained employment since being placed on pretrial supervision. The above is in violation of Ms. Harris' conditions of release that she 1) refrain from any use or unlawful possession of a narcotic drug or other controlled substance, 2) participate in a program of inpatient or outpatient substance abuse testing, education, or treatment if deemed advisable by Pretrial Services, and 3) Maintain or actively seek employment.

As previously reported to the Court, Ms. Harris reported for supervision on November 17, 2005, and signed a voluntary admission of illegal drug use indicating that she used cocaine on or about **November 12, 2005**. Defendant Harris tested positive for cocaine on urinalysis tests administered **October 12, 2005**, and **October 19, 2005**. Ms. Harris' October 12, 2005, positive test result could be attributed to use prior to being placed on pretrial supervision. Both positive test results were confirmed by Kroll Laboratories. On October 21, 2005, Ms. Harris failed to attend a substance abuse intake assessment at New Directions, Inc. as directed by her supervising officer. Furthermore, the defendant failed to report to Pretrial Services as directed on October 28, 2005, November 9, 2005, and November 16, 2005.
